Questionnaire for institutions

General instructions

Many questions specify that information should be provided for a particular year(s). The table below indicates the academic year in question for institutions where an academic year does not coincide with a calendar year. Please use the format that fits your institutional administration best. Please be consistent regarding the format you have chosen within each question.	
Year	Academic year
2014	2014/2015
2015	2015/2016
2016	2016/2017
2017	2017/2018
2018	2018/2019
2019	2019/2020
Please note that more information on the approach of U-Multirank, the methodology, explanations on data elements, calculations and rationales can be found on our website.

Programmes

In some higher education systems the **standard period of study differs by discipline** (e.g. engineering programmes are longer than those in the humanities) or level (honours bachelor programmes are longer than standard bachelor programmes). At the request of a number of participating institutions we offer the option of indicating different durations for standard and longer bachelor and master programmes. This makes reporting more convenient and enables a better calculation of graduation rates.

(If all of your bachelor and/or master programmes have the same standard period of study please use the 'not applicable' option for bachelor_II and/or master_II.)
